Sea-****mon, of the Buckeye Works.**

Pot setting was commenced at the

Buckeye Glass Works at Martin's Ferry

yesterday. They will be filled on Mon-

day week and glass making will be

commenced on Wednesday or Thurs-

day of that week. Alex Humphrey,

the new manager, is getting everything

in readiness for resumption.

President A. D. Seamon states that

there is no strike at the Buckeye, and

that the old employees of the factory

have no claim whatever on him or the

works; that when the works closed

down, on June 10, 1893, all of the glass-

workers were discharged; that they

have never since been employed; that

they were not asked to go to work again

until a few days ago, when they were

offered jobs, if they wanted them, that

had plenty of glass; did not have any

reason to run about the time of the Ma-

rion convention, and did not then ask

the men to work any list, Marion or

any other one.

He says that he has received more

than double the applications that he

will need, and that they will pick out

the best of the men. Three letters came

in one mail yesterday afternoon. One

was from a handler and finisher, who

was anxious to get a job, and said he

could get several blowers if they were

needed.

Mr. Seamon claims that of the one

hundred and sixty shops working on

tumblers in the United States only

four are union, and these are in Erie

Bros. glass works, at Hammondsville,

Pa., and that 75 per cent of the output

of the Buckeye was of these goods when

it shut down.

Owing to their increased business the

Union Glass Company will double the

present capacity the first of the year.

The output is now twice as large as it

was when the works started, and with

the present force it is necessary to run

day and night to fill orders. Dealers

have been telegraphing for goods and

wiring the management to hurry up

their orders. The year's business has

been first class—much better than ex-

pected.

The West Virginia Glass Company

have already received some nice orders,

and many inquiries for the two new

lines, Nos. 213 and 216. Both are com-

plete, and cuts have been mailed to the

trade. They have out a large line of

this ware in plain crystal and in amber

and ruby decorations. The factory will

have additional new novelties for the

spring trade.

**A Whist Party.**

Last evening at the parlors of the

McLure Mr. and Mrs. George Adams

entertained a large number of their

friends, about seventy-five, at an en-

joyable whist party. The play was ex-

citing and interesting throughout the

evening, most of the prominent local

devotees of the game being present, and

all who were present had nothing but

words of praise for the evening's

pleasure.

PERSONS purchasing Spectacles for

Christmas presents from Prof. Sheff

will be given a card which will entitle

them to have eyes examined and glasses

fitted free of charge after Christmas.

SMITH Brewing Co. makes the best

ale, porter and brown stout.
